# STONY PLAIN SUN.

VOLUME EIGHT. STONY PLAIN. ALBERTA. THURSDAY, JULY 19 1928. Whole Number 415

**BASEBALL !**  
**EDMONTON BEACH,**  
**SUNDAY, JULY 22nd.**  
**MORAVIANS,**  
(Edmonton's Noted Colored Team)  
**versus HOLLORN.**  
**At One o'Clock Sharp.**  
Winners to play Edmonton Journal team.

**Anniversary Services**  
On Sunday next, July 22, the minister and congregation of the Reformed Church at Glory Hills will celebrate the 20th anniversary of the church. Rev. C H Reppert, pastor.  
Pastors to be present: Rev R Birk, Sutton, Neb.; Rev E Lehrer, Cambelleport, Wis.; Rev P Sommerlatte, Edgewood, B.C.  
Services—Morning at 11; afternoon at 3.  
Tues., July 24, 8 p.m.  
Thurs., July 26, 8 p.m.  
Dinner will be served at the church on Sunday.  
Everybody welcome.

**Wednesday Half-Holiday.**  
During the months of July and August all places of business in Stony Plain will close Wednesday afternoon at one o'clock.

**LOCAL NEWS.**  
Mr A L Watkins of Wainright, was a week-end visitor with Officer Moses.  
Mr Karl Strass, who has secured employment in Edmonton, will shortly move to the City with his family. He intends selling his new and well-appointed residence on Meridian road.  
Mr Turlock has moved his family from Wolf Creek to their new residence on First street.

Everybody will be at Edmonton Beach on Sunday afternoon next, when the colored team from the city will engage Holborn's good ball tossers. The game will be called at 1 p.m. sharp. The winners of this game will play the team from the Edmonton Journal. These games should attract as big a crowd as can gather round the diamond.

Miss Mary Schoepp, daughter of Mr Peter Schoepp, is making good progress toward recovery from injuries received in a recent auto accident.  
If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, 10159 101st St. Edmonton.

**Induction at United Church.**  
One of the most important events in the history of Stony Plain United church took place Friday evening last, when Rev G A Sauder was inducted into the pastorate of the church.

The service was in charge of Rev C F McIntosh of the Knox United church, Edmonton, and chairman of Edmonton Presbytery. Rev McIntosh propounded the regular questions to the incoming minister, who answered in a satisfactory manner. The congregation then stood to signify their acceptance of the new pastor.

Following this, Rev W A Smith of Norwood Church, Edmonton, addressed the minister. In this address Rev Smith emphasized the need of a deep devotional life on the part of the minister, in which meditation, study of the Scriptures and prayer have a large place.

Rev Wilfred Gaetz was the next speaker. His address was directly to the congregation, in which he outlined the importance of consistency and practical Christianity on the part of members of the church. Rev Gaetz stressed the need of integrity and honesty in all dealings, and of assisting by encouraging words both to and about the minister. Mrs Yates sang as a solo. "I heard the voice of Jesus say." This was much appreciated. At the close, the Ladies Aid served dainty refreshments.

## GET IT AT HARDWICK'S.

## NOXIOUS WEEDS !

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 6,000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss ?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

**FIELD CROPS BRANCH,**  
Alberta Department of Agriculture.

## at Low Cost

If you could have exactly the kind of car you wanted, what are the features you would demand?

You would want Performance... stamina to stand long, trying trips.  
Then you would want Style, of course—the latest trend in body design—long, low, racy lines—the newest and most modish colorings. You would want the distinction of Body by Fisher.

And you would like a Luxurious car... one with wide, deep cushions that invited rest... with rich and beautiful upholstery and fine interior appointments... one with snug protection against the weather with ease and smoothness of riding.

Last, but by no means least, you would demand Quality... substantial construction... refinements such as Four-Wheel Brakes, Air-Cleaner, Oil Filter, Crankcase Breather, Vacuum-Feed Fuel Supply, Safety Gasoline Tank in rear and so forth... dependability at all times and under all conditions !  
These are the things everyone would like to have in a car... and that everyone CAN have, for the first time in automobile history, at the low cost of the "Bigger and Better" Chevrolet. \$14-15-222

## The Immigration Problem

Probably no single question affecting the national life of Canada has called for and received greater attention within recent months than the subject of immigration. It has been debated in church assemblies, Labor Unions, war veteran bodies, in Parliament and Legislatures, in the press and upon the public platform. Committees have spent weeks and months studying the problem and have issued reports. The net result is that the Government is advised and urged to adopt this policy and that policy, each one mutually destructive of the other.

On the one hand there are those who contend that only those immigrants who will engage in agriculture should be allowed to enter the Dominion, and that artisans, laborers, and those who naturally locate in cities and large centres of population should be excluded. Others would throw the doors wide open to all classes providing only that they must be healthy both morally and physically, able and willing to work, and content to abide by and uphold the laws of the Dominion.

Then there are those who would draw a purely racial line of demarcation. They would entirely exclude the so-called "yellow" races; they would bar the negro; they would put a stop to the admission of immigrants from the countries of southern and central Europe; in a word, they would rigidly restrict all immigration except that of people born and bred in the British Isles and speaking the English language.

So the Government is told that only agriculturists should be admitted into the Dominion, and then only provided they are of the white race, are of certain religious faith, hail from British Isles, and speak the English language. Provided they are of British descent, such immigrants might also be admitted to Canada from the United States.

To begin with, no Government under the British flag, and having the slightest regard for that cardinal British principle, liberty of conscience, will recognize or enforce any bar to immigration based on the religious convictions of the intending immigrant. To do so would be the abhorrent to the great mass of the Canadian people and would be equivalent to declaring to the world that Canada was no longer British.

It is equally true that an overwhelming majority of the people of Canada, and this includes all Governments, would like to see a large increase in immigration from the British Isles. Every possible effort is put forth to accomplish this result. Why is it, then, that the annual influx of British immigrants is not much larger?

There are many reasons, but a few may be cited. The number of the British agricultural class is not large, and the surplus available for emigration is practically negligible. British agriculturists can be well employed at home.

In the British Isles, the women largely outnumber the men. Some millions of British women are condemned to spinsterhood. For this and other reasons they are invading many employment fields formerly occupied by men, and the necessities of the war gave a great impetus to this movement.

The effect is seen in the rapidly declining birth-rate. In England and Wales the birth-rate fell last year to 36.7 per thousand of the population, as compared with 24.1 in 1913, the last year before the war. In other words, the birth-rate has declined one-third in the short space of fifteen years. There is not, therefore, the same tremendous urge to emigrate as was the case in years gone by.

As a matter of cold fact, the birth-rate is declining among all the white nations. It has long been declining in France; it is declining in Italy, Germany, the United States, Canada. Observers and students in Great Britain, unlike some in Canada, do not appear worried over the inter-mingling of the white people of different nationalities, but they do entertain some fear that, with declining birth-rates among all peoples of the white nations, the white race will lose its supremacy and world leadership. They foresee the day when the "quota" law of the United States will be unnecessary so far as Europe is concerned, because there will be a shortage of "whites," let alone a surplus to emigrate.

Notwithstanding the difficulties in the way, and the many conflicting views that prevail, it is agreed by most Canadians that this Dominion is in need of a much larger population—a population which is not being provided by natural increase as a result of the prevailing low birth-rate. If immigration to Canada is to be increased, then there must be some compromise effected between those who insist on agricultural settlers only, and those who would admit other able bodied workers; also compromise between those who would admit only those who would serve to swell the ranks of their particular religious denomination, and some compromise on the issue that ability to speak English is the hallmark of good citizenship and the only guarantee of success.

## Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

## Liquor Problem in Australia

New South Wales Will Vote On Referendum September 1st

New South Wales will come to grips with the liquor problem when it votes September 1 on a referendum offering the option of continued open sale of liquor and prohibition.

If prohibition is defeated the Government will review the whole position with a view to adopting a course which will effectively minimize the liquor traffic now, according to Hon. T. J. Ley, minister of justice.

Meanwhile the Government is being waited upon by delegations demanding everything from drastic bone dry legislation to a moderate form of Government control, such as prevails in some provinces in Canada.

## WAS VERY DELICATE

New Health Came Through Using Dr. Williams' Pink Pills

Mrs. Casper Miller, Lourdes, N.S., says that twice in her lifetime she has reason to be thankful for what Dr. Williams' Pink Pills did for her. She says: "I was a very delicate girl you know, when I first found benefit from Dr. Williams' Pink Pills. I was a sufferer with cramps and pains in my stomach and was hardly able to move around at all. One day when I was very sick a friend came in to see me and she said to my mother, 'Why not try Dr. Williams' Pink Pills. I know they will do her a world of good.' The result was my mother got six boxes and I began their use, and I soon found benefit from them. By the time I had taken them all I felt altogether different and no longer suffered from cramps and pains. Then a few years ago I was attacked with influenza, and was sick for six weeks. Again I started taking Dr. Williams' Pink Pills, and again they brought me good health. I am the mother of a family and do all my own work, so you see I have to keep in good health, and depend upon these pills to keep me so. I always recommend Dr. Williams' Pink Pills to any of my friends who may be sick."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills. Note how your strength and health will improve. You can get these pills through any druggist, or at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Light Aeroplanes

Metallized linen, a new fabric, may bring about a complete change in the construction of aircraft. It has a tensile strength of over 1,600 lbs. per foot width, and is very light. An aeroplane half the present weight, yet considerably stronger, could be constructed from such a fabric, it is said, while petrol for its engine would be saved.

It is made of a material lighter than the thinnest aluminum.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains, in healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

## Know Her Onions

Most onions are pretty much alike to the average person, but those persons from South-western Texas, say there is only one real onion and that is the variety that grows in the sandy dirt of that State. To give an idea of the fondness Texans living near the Rio Grande have for their native onions a woman recently arrived in New York with a trunkful which she turned over to the chef of the hotel where she stayed. She left orders that the Texas onions were to be served with dinner each evening. She told friends she would have been unable to leave made the trip North without them.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Every Home Needs Minard's Liniment.

Popularly often wins new acquaintances and loses old friends.

## W. N. U. 1742

## Recipes For This Week

(By Dotty Barclay)

### CREAMED PEAS

- 1 can peas drained or
- 2 cups fresh peas.
- 2 cups milk.
- 4 tablespoons flour.
- 4 tablespoons butter.
- 1 teaspoon salt. Pepper.

Make cream sauce by melting the butter, add the flour to make a smooth paste. Add the milk, one-third at a time, stir to avoid lumps. Add seasoning and peas. Heat in double boiler until the peas are thoroughly warmed.

### ORANGE PINWHEELS

- 1 cup flour.
- 2 teaspoons baking-powder.
- 1/2 teaspoon salt.
- 2 tablespoons butter.
- 1-3 cup milk.
- 2 tablespoons sugar.
- 1/2 tablespoon orange juice.
- Grated orange rind.

Mix and sift flour, baking-powder and salt, rub in one tablespoon butter, or other shortening, and moisten to a dough with milk. Roll thin; spread with remaining butter, sprinkle with sugar mixed with orange juice and rind, and roll up like a jelly-roll. Cut in slices, and place, cut side up, in buttered muffin-pans. Sprinkle with remaining sugar, and bake in a hot oven. When small and dainty, these are good for afternoon tea.

Sunburn? Use Minard's Liniment.

### A Labor Saving Machine

New Device Polishes Glasses At Rate Of Ten A Minute

A device which washes, sterilizes, dries and polishes drinking glasses of any size at the rate of ten a minute, has been invented by a young Englishman.

A tumbler placed on a spindle, is embraced both inside and outside by revolving rubber squeegees. As the spindle is made to rotate by an electric motor, a flow of fresh sterilized water is ejected over the entire surface of the glass. The glass is then transferred to a second spindle, on which it is dried and polished by a similar pair of squeegees. In addition to saving labor, the machine is said to reduce breakages to a minimum.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

### X-Ray Prevents Smuggling

A terror for smugglers is at the new electrical clinic which has been opened in Baker Street, London. It is a new stereoscopic X-Ray apparatus from Germany which will show exactly what is in the box full of goods or any article lodged in a human body. Packages or anything made of wood could be X-Rayed, thus saving customs officers unpacking them.

The man who says what he likes will hear many things that he dislikes.

## WRIGLEY'S P.K. CHEWING SWEET

Here is a treat that can't be beat! Benefit and pleasure in generous measure!

### Peppermint Flavor

## Slenderness And Health

Excessive flesh is dangerous to your health, but it is not! MAIGRI is a scientific reducing remedy of proven satisfaction. Start treatment at once—you'll feel better—look better—live longer. Refunded if not entirely satisfied. Sent by mail only, postpaid. In plain wrapper. Price 21 per box, or 3 boxes for \$5.50. Write—

MAIGRI DISTRIBUTORS, LTD.

Box 277-3

525 Pacific Bldg., Vancouver, B.C.

Omnibus lines are still a favored method of transportation in London, and several large European cities.

### Nothing As Good For Asthma.

Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

### Artificial Wool

London Evening Standard, says he learns that a fine quality of artificial wool for years the despair of research scientists, now is an accomplished fact, and shortly will be manufactured on a large scale at a low cost.

## After a Shave.

After a shave, lotion your face with Minard's. Soothing and cool. Excellent for cuts.

## HERCULES

PERMANENT BUILDING PAPER

### Smooth the Bumps on the Sales Road

Regardless of price, if quality is in the merchandise, it is half sold.

Hercules Permanent Building Paper is tested and proven wind-proof—absolutely. Hercules not only aids in selling but brings repeats. Hercules also has the quality of toughness which, making it easy to use without fear of tearing or cracking, appeals strongly to the user.

Hercules—in three grades, x, xx, xxx—will smooth your building paper sales road. Samples sent on request.

Appleford Paper Products

HAMILTON, CANADA

## Many Investigations Carried On By National Research Council Connected With Crop Problems

Handicaps to research work in agricultural problems, resulting from lack of funds for the purpose are likely to be overcome through the decision to hand over to the National Research Council \$219,000 of accumulated "overages" from the government terminal elevators.

It is to be specially ear-marked for plant pathology, grain diseases, and the like. Surpluses accruing from the elevator trade will thus go indirectly to assist the problems of grain growing.

The research council and the department of agriculture, in co-operation with the universities, have been engaged in combating mainly grain rust and root rots. Recently an associated committee on field crop diseases has been appointed by the council jointly with the Federal department of agriculture for the purpose of undertaking research work into field crops diseases.

The importance of such a research will be appreciated when it is stated that the estimated cost annually to the North American continent through such diseases ranks from 15 per cent. to 20 per cent. of the total crop values.

At the present time, agricultural research work is going on in the University of Alberta summer building laboratory where representatives of the Research Council, the Federal Department of Agriculture and the University are working together. The same arrangement is in effect in the University of Saskatchewan. In the University of Manitoba the laboratories were provided by the Federal Department of Agriculture, and are being run in co-operation with the University of Manitoba.

At the present time Professor Robert Newton is undertaking an investigation of the factors governing the milling and baking quality of wheat with the purpose of ascertaining why the quality of wheat varies so widely from place to place, and the possibilities for improvement by the use of better adapted varieties and better cultural practices. Professor Newton is also endeavoring to obtain a better knowledge of the possibilities and limitations of methods for grading wheat on a quality basis.

A further investigation has been conducted by Professor E. H. Strickland into the life story and control of prairie inhabiting wire-worms and false wire-worms with the purpose of reducing the present annual losses to farmers which now amounts to many thousands of dollars annually.

Professor F. H. Roberts is conducting an investigation for the purpose of determining the exact factors concerned in the inheritance of sugar and starch in the endosperm in Indian corn, while a further investigation is being conducted by Professor A. H. R. Butler, with respect to the size of spores in fungi, and Professor A. T. Cameron is engaged in research into the glucosides of plants indigenous to Western Canada and adjacent territory.

Technical researches with respect to the effect of light upon organisms are being conducted by Professor A. G. Klugh, who hopes to secure data which will have important application in respect to the fisheries, the forests and human life, while other researches are being carried on by E. A. Lloyd in connection with poultry.

"I had been speaking to Jenson for five minutes when he called me an idiot."  
"Did it take him that long to come to a decision?"—Vikings, Oslo.

W. N. U. 1192

A further research is being conducted by Professor Robert Newton for the purpose of discovering the fundamental nature of frost resistance in crop plants and the different reliable methods by which the plant breeder may estimate accurately the hardness of a new strain the first season rather than be forced to test it in field plots for several winters.

Researches are also being conducted by Professor A. E. Cameron into the economic significance of the horse-fly to stock breeders; by Professor F. J. Lewis into the reserve food materials in evergreen leaves during winter seasons; by Professor J. R. Fryer, into the biological origin of false wild oats; by Professor W. P. Thompson into the inheritance of earliness and lateness of wheat and the making of early hybrids direct breeding; by E. S. Hopkins the subject of determining the water requirements of crops; by Professor W. Sadler, on the subject of the correlation of the grading of cream and butter with the bacterial content of the milk or cream used in the preparation of these products; by Dr. J. F. Snell, on the subject of acidity and lime requirements of Quebec soils; by Dr. F. C. Harrison, on a variety of subjects regarding soil content;

by Professor G. W. Searle, on the effects on plant growth of the various electro-positive elements and ions and the more fundamental causes of these effects.

By no means the least important of the co-ordinative and co-operative research which have been going on for some time past and from which results are being secured is that in connection with tuberculosis, a full report of which will be forthcoming next autumn.

### Vitamins For Growing Chicks

Cod Liver Oil Is Recommended In Certain Cases

Leg weakness has been a common disease of young chicks but investigations of recent years have taught poultrymen how to avoid this trouble. If growing chicks get an abundance of direct sunlight they are not liable to contract this disease, but if housed for four or more weeks they are invariably subject to the trouble which may be prevented by special feeds, that are known to be rich in vitamins. Cod liver oil is now used in many poultry flocks and its virtues is believed to be due to its richness in vitamins. A pamphlet on the artificial "Brooding Of Chicks" prepared by the Dominion District Poultry Promoter and the Provincial Poultry Superintendent for New Brunswick, recommends the use of cod liver oil in amounts of one to two per cent. of the mash according to the degree of confinement. This is, it is claimed, will prevent or even cure advanced cases of leg weakness. Egg yolks, and canned tomatoes are claimed by these authors to have a value in preventing leg weakness. Other feeds rich in this necessary element are found in yellow corn, green feeds, immature cut clover and alfalfa hay. These if used in an otherwise well balanced ration will give the flock the vitamins necessary for their well doing.

The plan recommended for mixing the cod liver oil in the dry mash is to first mix the oil with bran until it is evenly saturated and then to mix the bran with the other ingredients of the mash. As the vitamin quality diminishes when mixed with the feed only sufficient mash should be mixed at a time to do the flock for three or four days.

**Relays Color and Movement**  
J. L. Baird has demonstrated two of the latest developments in his television process—the transmission of movement in ordinary daylight and colored views. By these developments the broadcasting of action views of open air events is possible as well as the transmission of scenes containing color.

There are 1,063,876 letters in the complete Bible.

The first cannon was used in England in 1277.

One-Piece Slip-On Dress

One-piece slip-on dress having V-shaped neck finished with applied bands and a bow of material or ribbon. Circular insets at sides of dress. Dart-filled sleeves, perforated for short sleeves. For ladies and misses. Sizes 16 years; 36, 38, 40, 42 inches bust.

Size 36 requires 3 1/2 yards 40-inch material with long sleeves.

Price 25 cents the pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

### New Marketing Organization

Encouraged by the success of co-operative marketing shown by the Canadian Wheat Pool, the smaller millers in Eastern Canada are forming a co-operative marketing association. The plan for such an association was submitted at a recent meeting of the Dominion Millers' Association and was endorsed unanimously. This is a new departure in co-operative marketing, which is already applied to a variety of farm products.

If matches are made in heaven the shipping clerk must make some awful blunders.

## SO LONG CHAPS

Stung to protest by the sur that they are "department store cowboys," the guides of the Rocky Mountains are reported to be discarding their picturesque "chaps" in favor of common or garden riding breeches. The guides in the neighborhood of the Banff Springs Hotel are the delight of visitors, with their broad brimmed hats and shaggy sheep skin chaps, worn primarily in the early days to protect the riders from leg injury when herding long-horned steers on the prairie. The fact that the unadorned riding breeches are as serviceable and can give no cause for criticism as seeking an effect, is apparently bringing about a change in fashion, and soon the bronco-buster's costume as the movies conceived it may be only a museum piece.

The Rocky Mountain guides in handling parties of tourists, many experimenting with trail riding for the first time, have an amusing and exciting time, and succeed in not only making and breaking camp and catering the needs of their parties, but in safeguarding the most timid tenderfoot and bringing all through happy and unharmed.

## Prominent Canadian Educationist Speaks On High Standards Of Life That Obtain In Dominion

In Charge Of Transportation

J. C. Sutherland, who has recently been appointed superintendent of transportation western lines, Canadian Pacific Railway, succeeding E. D. Cotterell, appointed General Superintendent Manitoba District. Mr. Sutherland was formerly superintendent of the Calgary Division.

### Pemmican For The Eskimos

Wainwright To Buffalo Pemmican Shipped To North For Food

A recent shipment of buffalo from Wainwright brought the season's quota up to 1,088 head, which will probably be the final allotment to the Mackenzie River District.

At the present time pemmican prepared from buffalo meat put through the park abattoir, by a big Alberta packing house last winter is being shipped to an eastern port for transportation to the natives in the Eastern Arctic. Already consignments have been forwarded by water to the Eskimos in the vicinity of Akkavik, where it is understood to have met with considerable favor.

### Many Building Contracts

Building contracts awarded in Canada, in June of this year, totalled in value \$59,938,100, the second highest total ever recorded for any month; the record being in May of this year. Last month's total exceeded that for June, 1927, by 14.7 per cent. From January 1 to June 30, 1928, the value of building contracts awarded in the Dominion amounted to \$256,257,390, which is 33.9 per cent. higher than the value for the first six months of last year.

### Largest Annual Exhibition

The Coliseum at the Canadian National Exhibition, Toronto, a civic enterprise, is the world's largest exposition building, covering 16 1/2 acres. This exhibition is the largest in the world held annually. It will be held this year from August 25th to September 8th.

Representing 20,000 Canadian teachers, Dr. E. A. Hardy, of Toronto, president of the Canadian Teachers' Federation, brought greetings from Canada to the National Education Association of the United States. In annual convention at Minneapolis, under Miss Cornelia Aldrich, of Richmond, Va., national president. Dr. Hardy stressed the achievements of Canada and the important part played by the teaching profession, which in the dominion maintained a uniformly high standard under the rigid supervision of the provincial education departments.

"Speaking as a Canadian, it seemed to me fitting that I should try to express to you, though in the briefest way, the outstanding features of Canada and Canadian life and the relations of the Canadian teachers to that national life," Dr. Hardy said.

"There are certain characteristics of Canada which I would note. First, the high standards of life, material and spiritual. Thanks to our natural resources, agricultural and mineral, rich beyond the dreams of the wildest imagination, and to the marvellous development of these resources, our people live in a general comfort and prosperity, unequaled anywhere except in the United States. On the spiritual side we have a creditable achievement in literature, painting, architecture, music, and science, and the power of religion in our life is deep and vital. In her general standards of life, both material and spiritual, Canada is second to no other country in the world."

"Second, Canada is a land of democracy. In Canada not only must every administration, federal and provincial; go to the people for election every four or five years, but they must go at any time, if public opinion demands it. We have opportunity, through our federal, provincial and municipal bodies, for many thousands of our men and women to represent their fellow citizens. Possibly no other country elects a larger percentage of its citizens to public office. As to public ownership, Canada occupies a front rank."

"A third characteristic is co-operation. Our area is so vast, our resources so enormous, our population so small as yet, and so scattered that we have been learning that in co-operation lies our hope of success. Two striking examples may be given. The English and the French races are united in the Government and the development of Canada with marked success. The Religious Education Council of Canada is a nation-wide union of the great Protestant denominations, and the Y.W.C.A. for a systematic undertaking of the great task of the religious culture of our young people. So far as I know this is the only nation-wide movement of the kind in the world."

Dr. Hardy explained the dominion's position in the British Empire of which it was proud to be a member, and continued: "Internationally we are taking our place. One of our greatest Canadians was a member of the small group who made the League of Nations and gave it its constitution. Canada has been a member of the League of Nations from the first. A Canadian has been President of the Assembly of the League, and Canada is now admitted to the inner circle group, the council of the League. In Imperial and International affairs Canada is assuming her place and her people are developing an imperial and a world outlook."

There were eight Crusades conducted into the Holy Land.

## WORLD HAPPENINGS BRIEFLY TOLD

As a site for the farms and homes of Sweden's youth, the Peace River District and the vast stretches of the Canadian north will be studied by a commission from Sweden.

The Dominion bureau of statistics reports 864 accidental deaths in Canada credited to automobile accidents in 1927, against 606 in 1926, an increase of 12.5 per cent.

A check of \$1,000 has been received by Commander Richard E. Byrd from Charles A. Lindbergh, as his contribution to the fund being raised for the Byrd Antarctic Expedition.

Veteran of the South African War and the Riel Rebellion, and former assistant commissioner of the Royal Canadian Mounted Police, Lieut.-Col. F. J. A. Demers, 63, died suddenly at Edmonton.

Against the wishes of Marshal Foch, a bronze equestrian statue of himself was unveiled at Caesal, Northern France, before a throng that included many notables of France, headed by Premier Poincaré.

In accordance with a custom established shortly after the war, about 1,000 London school children made a pilgrimage to Shorncliffe Garrison Cemetery and decorated the graves of Canadian soldiers.

Fifty-three million dollars of Dominion of Canada war loans, which mature in October, will be paid in cash. Hon. J. A. Robb, minister of finance, states that these obligations would be met out of money in the treasury.

## Farmers' Marketing Tour

Canadian National Railway's Tour  
To Great Britain and  
Denmark, 1928

(Continued.)

The culmination of this eventful day in Denmark's capital, was a reception and high tea at the house of Mr. E. Millington Drake, the British Charge d'Affaires, where, as co-hosts with him, we entertained Mr. Madsen Mygald, the Danish Prime Minister, and other representative Danes. Sickiness prevented the expected appearance of Prince Axel, who sent, however, a message of greeting to the Canadian visitors. The speeches of the Charge d'Affaires, the Prime Minister and our leader, Mr. Arkell, during this delightful evening, were broadcast and heard all over Denmark, as we found out later in the tour. This was the first broadcast in Denmark from a private house. Never before had we found ourselves co-partners, on foreign soil, with the official representatives of the British Empire and we did not feel more proud of that Empire and Canada's share in it.

On our second morning we were away by 8.30 to visit the 125-acre farm of Mr. Carl Jensen en route to the Langager Co-operative Dairy, a typical small dairy serving about 150 farmers, where we found a warm welcome and a friend of Canada, the manager, Mr. Larsen, having a son, Mr. Axel Larsen, in Winnipeg. At Mr. Jensen's farm we were introduced to Danish seed corn and a splendid example of the better class Danish farm house, more like the home of a retired general than that of a farmer actively engaged upon his land. We had been told that the renaissance Danish agriculture was with the break-up of the Danish villages and the placing of the farmers' houses upon the land, and here was an excellent example of the change, which has given to the Danish countryside a uniqueness and character all its own.

Our next stop was Frederiksund Bacon Factory, a co-operative concern formed thirty-three years ago with a supply of 300 pigs a week. It now has a weekly supply of 2,500 pigs, handles eggs from 8,000 poultry farmers and has paid off all loans incurred in the building and re-building of the factory. As we saw the live pigs coming in to the factory we were astonished at their uniformity, but still more at the uniformity of the bacon sides which they produced, a tribute to the educational work that has been done among the farmers. It was interesting to observe, however, that at the time of our visit only 20 per cent of the sides were grading No. 1, 45 per cent No. 2, and 35 per cent No. 3. In the summer the number of thirty-three years ago was higher, up to 25 and 30 per cent, but the grading is very close indeed.

We were fortunate in meeting the director of the factory, Mr. F. L. Sieck, who has been in charge since its inception. He is probably the best informed man in Denmark in the bacon business. He is secretary of the committee which meets weekly to fix the prices to be paid for hogs by the bacon factories throughout the country, and chairman of the committee which fixes the price to be paid for eggs by those bacon factories handling them. It is worth noting that Mr. Larsen, president of the factory, counts it a poor year when he fails to make less than \$5,000 net profit from his own factory. His worst year showed a net profit of \$2,000.

This informative visit was followed by a tour of Frederiksund Castle, founded by King Frederic II., but now a national museum of historical portraits and paintings arranged in rooms furnished in keeping with the various periods. Here we saw the finest relief ceiling in Europe, but two outstanding memory which we all brought away with us was of two pictures of more recent date. The one portrayed the burial of the Danish flag by the inhabitants of Schleswig-Holstein at the end of the war with Germany in 1865, and the other the welcome to the restored province to

## DIARRHŒA Was So Bad Child Passed Blood

My Harry Nesbit, B. E. No. 2, Sharncliffe, N.B., writes: "Last Fall my little boy took a very bad case of diarrhœa and before I knew it he was passing blood. I went to our medicine case and gave him a dose of

and a little later gave him another, and half an hour after the second dose he got relief and by the time he had taken six doses he was like a different child."

This wonderful bowel complaint remedy has been on the market for over 20 years, put up by The T. Millburn Co., Limited, Toronto, Ont.

the Danish King when, after the Great War, he visited his reclaimed subjects and the buried flag, now brought forth to the light of day was presented to him. Passing through the province the King picked up a child and placed her on the pommel of his saddle. In this position he carried her with him through the scenes of rejoicing, years of joy, it said, coursing down the royal cheeks.

From the castle we passed to what was perhaps the strangest feature of the tour in Denmark. This was the People's High School at Frederiksund. What we had been asking ourselves, was the secret that the Danes possessed that seem to make all Danes brothers. In a sense, not to be observed perhaps in any other nation. How did they co-operate so whole-heartedly and yet preserve their individuality. We believe we found it that afternoon, when Dr. Frederik Begtrup spoke to us on the Danish Folk High School. Here was a school attended, in winter, by young men, and in summer by women in the adolescent period, a school free from inspection, where examinations are unknown, a type of school which is often supported by an individual, but where supported in part by State funds, is nevertheless in no way amenable to the State as to its curriculum. What object could there be in such a school? Here is the answer. Schools like these do not exist for the impugning of knowledge, but for the development of understanding. The fare at schools such as these is plain, the life Spartan. The pupils rise at 6.45. The masters are fired by high patriotism and high ideals. Waken the soul of the young man and woman, says the Folk High School, and there will result perception of the deeper values of life which will stand the pupil in good stead in all the crises of life. Practical values need not then be stressed, but will be understood and appreciated as their natural relation. If then co-operation has arisen among the Danish people, it has grown of itself, not because it was stressed but because it seemed the natural solution to the problem that existed. Whatever may be forgotten in the memories of the trip or grow less defined, it is certain that the spirit of the Folk High School will be remembered. Mr. Begtrup revealed himself as the personification of the teacher who is torn whose heart and soul are in his work, and whose work will live when he and his are gone.

(To Be Continued.)

## SUNDAY SCHOOL LESSON

JULY 22

### SAUL'S EARLY MINISTRY

Golden Text: "Straightway in the synagogues he proclaimed Jesus, that He is the Son of God."—Acts 9.20.  
Lessons: Matthew 9.10-30; 11.19-30; 12.25; Galatians 1.15-18.  
Devotional Reading: Romans 12.1-8.

### Explanations and Comments

Paul's Preparation in Arabia For His Ministry, Galatians 1.15-18.—Like says nothing about Paul's stay in Arabia, but Paul writes in his Epistle to the Galatians: "When it was the good pleasure of God to reveal His Son in me, I might preach Him among the Gentiles, straightway I conferred not with flesh and blood, neither went I up to Jerusalem to them that were apostles before me, but I went away into Arabia, and again I returned unto Damascus. Then after three years I went up to Jerusalem." "It was a voluntary novitiate, a period of reflection and restraint, during which the truth which he had been so abruptly called to preach might be assimilated and clarified." Paul may have gone as far as Mount Sinai, yet it is possible that he went no farther than the desert region near Damascus, which might somewhat loosely have been known as Arabia. Like Jesus at the beginning of His public ministry, before entering upon His work, Paul went into the wilderness to fight his inner battles and think his problems through.

"The soul," said Robertson, "collects its mightiest power by being thrown in upon itself, and coerced solitude often matures the moral and mental character, the marvellously." It was into the solitude of Arabia that Paul passed after the dazzling revolution on the Damascus road, and there in the stillness the great solidifying of new character was made, and the new establishing of his life in God.—Robert E. Speer.

### Canada's Mining Industry

The investment in the operating mineral enterprises of Canada is now over 706 millions of dollars, and the net income annually from sales of products of the mines exceeds one-third of the total investment. During the past five years \$128,000,000 has gone into the mining industries of Canada.

Don't be afraid to speak out loud. The world is too busy to listen to whispers.

An Irish philosopher says that we can only get the things that are beyond our reach by striving for them.

## Industries in British Columbia

There are now 4,138 industrial establishments in the province of British Columbia, with an annual payroll of \$159,959,820, an increase over 1918 of 300 per cent. The principal industries of the province are lumber and shingle mills, mining, salmon, halibut and herring fisheries, foundries and structural steel works, paper, clothing, food products, glass and rubber.

"I don't even know if I'd have enough work for you to do."  
"Oh, that wouldn't matter, provided the pay was satisfactory."

## How Much Water Should Baby Get?

A Famous Authority's Rule  
By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, babies should have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the amount of ounces of fluid per pound of body weight, the amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is usually calculated for the bottle fed baby. Then make up any deficiency with water.

Giving baby sufficient water often relieves his crying, upset and restless spells. If it does not, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhœa, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is a pure vegetable purgative recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty-cent bottles contain thirty-five doses.

## MANITOBA TO OBTAIN CONTROL OF RESOURCES

Ottawa.—The Federal Government and the government of the province of Manitoba have reached an agreement as to the method and basis of settlement of the question of the administration and control of the natural resources of Manitoba. Premier Mackenzie King has issued a statement covering the agreement arrived at.

Under the agreement the vexed question of financial adjustments is left to a committee which will be appointed by the Federal Government with the concurrence of that of Manitoba. The two governments have agreed on the following persons as members to comprise the commission: Hon. W. A. Tupper, of the Saskatchewan Court of Appeal; Hon. T. A. Crerar, of Winnipeg; and Charles M. Bowman, of Waterloo, Ont.

Mr. Crerar occupied the post of minister of agriculture at Ottawa for some time and was also leader of the Progressive Party. Mr. Bowman is a director of the Mutual Life Insurance Company, of Canada.

Mr. King announced that these gentlemen would be appointed immediately of the agreement and that they would be invited to accept appointment.

### Might Be From Tropics

Unusual Exhibit Will Be Seen At Edmonton Exhibition

Edmonton.—Grapes, sorghum, sugar cane, soy beans and tobacco. Such a list reads like the exports of some tropical island, or at the very least, the products of a southern state.

Visitors to the Edmonton Exhibition will have the opportunity of checking up on the list, for the products mentioned will be included in the entry from the C.P.R. Irrigation Development farm at Brooks, Alberta, which will be staged in the Agricultural building.

Throughout the week fresh supplies of the products quoted will be brought to Edmonton from Brooks in order to keep the display fresh and attractive.

### Offered Home In China

Jews Given Opportunity To Establish National Home

London.—An opportunity to build a Jewish national home in China to supplement the one in Palestine was offered by the minister of the Interior at Peking, says a despatch from Peking to The London Daily Express.

"The offer was made as a result of a misunderstanding by the Chinese authorities of the application of a Zionist delegate who arrived in Peking and requested permission to collect funds for Palestine."

The minister of the Interior at Peking thought the Zionist wanted to purchase land in China for the purpose of settling Jews there and promised a special treaty if the Zionist would indicate the site for the proposed homeland and the approximate area required.

### Credit Situation Stable

Halifax, N.S.—"The credit situation is stable throughout the whole Dominion in every line of business," declared Henry Delchen, general manager of the Canadian Credit Men's Trust Association, at their annual convention. Mr. Delchen said that last year's failures under the bankruptcy act were the lowest in eight years and that a remarkable development was in process from the Atlantic to the Pacific.

### Going To Scotland

Regina.—Appointed as leader or assistant professor of the department of entomology at the University of Edinburgh, Dr. A. E. Cameron, professor of entomology in the medical science department of the University, Saskatoon, will leave for Scotland soon. Dr. Cameron was a professor in the University of Wales, London, and Aberdeen, before coming to Saskatchewan University in 1917.

W. N. U. 1742

## Marketing Surplus Wheat

Carry-Over Of 1927 Crop May Be 80,000,000 Bushels

Fort William, Ont.—A welcome revival in the movement of western grains and favorable for the coming harvest were main features of the June report of E. A. Ursell, statistician to the board of railway commissioners. A marked improvement developed toward the end of June in the marketing of the exportable surplus of Canadian wheat with the result that lake shipments increased substantially.

The increase in lake shipments was most welcome as providing storage space for most of the grain in transit from western points.

Lake shipments during July are expected to be quite heavy and will make room for the stocks at present in country elevators at interior points which must be shipped out in readiness for the new crop.

At the end of June there were 70,000,000 bushels of wheat in store in the western division, 8,000,000 bushels in transit to terminals, approximately 52,000,000 had been milled and used for seed and another 307,250,000 bushels had been shipped out of the division. Allowing for what was on hand on July 31, 1927, it would thus appear the net total of the 1927 wheat crop already accounted for is more than 439,000,000 bushels.

It looks as if the carry-over at the close of the present season will be very close to 80,000,000 bushels unless exports during the present month far exceed expectations.

## Cruiser Dauntless Redoated

Will Be Placed In Halifax Drydock For Repairs

Halifax, N.S.—The British light cruiser "Dauntless," which hung up on a prong of Tribune Ledge at the entrance to Halifax harbor on July 2, has been floated off, after a week's strenuous preparation by the wrecking crew of the Halifax shipyards.

The Dauntless was at once towed up the harbor and tied up to the piers in Mill Cove, Dartmouth, awaiting a berth in the drydock, and will be kept about by the compressed air pumps which were installed on her decks a week ago and which have been kept going continuously ever since.

The Dauntless will be placed in the drydock of the Halifax shipyards where, it is estimated, the repair work will keep 500 men busy for months. It had been ascertained early that the rocks had torn a 30-foot hole in the cruiser's bottom.

Thousands of persons gathered along the shore, on Citadel Hill and on harbor craft to witness the floating of the Dauntless from its precarious position.

## Toronto Mail Robbery

Five Men Under Arrest Charged With Complicity

Toronto.—Five men are under arrest here charged with complicity in the robbery of the Canadian National Railways mail car at the Union station in the early hours of June 20, it was announced by General D. C. Draper, chief of police. One woman is held on a charge of vagrancy and another as a material witness.

Although it has been generally rumored for several days that some arrests had been made confirmation had not been obtainable from the police.

Finlay McLeod, Sr., 48, of Toronto; Ernest McKibbin, 35, barber of Detroit, and John Brown, alias Sullivan, 28, Toronto cigar store clerk, are charged with robbery. Finlay McLeod, Jr., 24, Toronto newspaperman, and Alex. McLeod, 42, of Toronto, son of brother respectively of Finlay McLeod, Sr., face charges of receiving stolen goods.

### Will Investigate Tariff Proposals

Ottawa.—Hon. James Robb, Minister of Finance, has left Quebec for a holiday in Ireland. While there he will look into the new tariff proposals of the Irish Free State and he is expected to take up with William Cosgrave, president of the executive committee, the matter of extending to Ireland the provisions of the Canadian preferential tariff on Empire goods, subject to reciprocal treatment for Canadian goods on the part of the Free State.

## INDUSTRIAL CONTROVERSY

A. J. Cook, secretary of the Miners' Federation in Great Britain, who is the centre of the latest industrial controversy in the old country. He bitterly attacks the industrial peace policy of the Labor movement, and in return the Miners' Federation has disowned him while the Welsh Trades Union council has indicted him for disloyalty. He is familiarly known as "Emperor" Cook.

## Prize List Drafted

Six Wheat Classes In World's Grain Show Awards

Regina, Sask.—For the purpose of laying out a prize list for the World's Grain exhibition and conference to be held in Regina in 1932, a tentative classification has been prepared by a special committee nominated by Hon. W. R. Motherwell, Dominion minister of agriculture. The committee is composed of J. A. Mooney, of Regina; L. H. Newman, Carl Sweet, Dr. Mcrostie, and G. H. Clark, all of Ottawa.

Exclusive of special classes the tentative list makes provision for \$202,500 in prizes; six classes of wheat with \$100,000 in prizes, two classes of oats, with \$30,000 prizes; five classes of barley, with \$15,000 prizes; three classes of field peas, with \$3,000 prizes; two classes of soy beans, \$1,000; one class of rye, \$5,000; one class of flax, \$2,000; five classes of buckwheat, \$3,000; four classes of corn, \$30,000; one class of rice, \$2,000; two classes of millet, \$2,000; one class of red clover, \$1,000; one class of alfalfa, \$1,000; one class each in sweet clover, timothy, brome grass, mangels and turnips, \$500 each.

## Lord Byng's Appointment

Is Government Measure To Restore Confidence In Police Force

London.—The appointment of Viscount Byng, of Vimy, as commissioner of Metropolitan police, announced by the government to have been a measure to restore confidence in the police force, was sustained in Parliament when a Labor motion of disapproval was defeated, 231 to 106.

Sir William Joynton-Hicks, the Home Secretary, in making the announcement, declared that so shaken was the public faith in the police department that he had reluctantly called upon Lord Byng because the force needed, not re-organization, but re-inspiration.

Labor's opposition to the appointment of Lord Byng was based on the ground that it might tend to militarize the force. This Sir William denied.

Viscountess Astor and Miss Ellen Wilkinson, the woman Labor member, although differing on the propriety of Lord Byng's appointment found themselves in union in expressing satisfaction at the resignation of Sir William Horwood, the retiring commissioner, who, they said, had tried to drive policemen from the force and whose policy where women were concerned had been reactionary.

Lord Byng's appointment was announced a few weeks after the dismissal of charges of improper conduct against Miss Irene Savidge and Sir Leo Moley, who were arrested in Hyde Park. In connection with Miss Savidge's examination the accusation was made that the police had used the third degree methods.

## The Manville Tragedy

Vernon Booher Is Held As A Material Witness

Edmonton.—Developments in the Manville tragedy, in which four people on the Booher farm were shot to death, were the arrest of Vernon Booher, and the discovery that a British army rifle of .303 calibre was missed from the home of C. E. Stevenson, honored resident of the district, and whose farm is about a mile away from the Booher residence.

Vernon Booher, 20 years old, who found his mother, brother, and two hired men lying dead around the house and barn, shot through the heads, when he returned from the pasture at the sound of the shooting, is being held as a material witness.

Police investigators state that the arrest of young Booher is merely routine since he was the first to reach the scene of the tragedy.

## BRITAIN WILL REPLY TO U.S. ANTI-WAR NOTE

London.—The British reply to the American anti-war proposals in the opinion of Sir Austen Chamberlain, secretary of foreign affairs, will be forwarded to Washington before the end of the parliamentary session. The secretary made this announcement in the House of Commons in reply to questions and he took the responsibility for what some of the questioners characterized as delay in answering the American note.

The only delay, however, said Chamberlain, was the time which was being taken for careful consideration of such an important matter and the Dominions had no responsibility for this.

Heckled by Col. Josiah Wedgwood, Labor, who asked if Sir Austen intended to "wreck this proposal," the foreign secretary declared:

"I do not propose to wreck the proposal. I welcome the proposal and I wish to bring it to a successful conclusion."

Paris.—The Council of Ministers has approved foreign minister Briand's reply to Secretary Kellogg's proposals to outlaw war which France formally agrees to sign.

It was understood that the reply, which fully explained France's viewpoint, does not put the explanations in the form of reservations.

## Meeting In Regina

Of Noted Barristers

Representatives Attending From England, France, Irish Free State and U.S.A.

Regina.—Preparations for the most brilliant assemblage of legal talent ever to gather are proceeding here. Next month, the 13th annual meeting of the Canadian Bar Association will be held in this city, with headquarters in the Hotel Saskatchewan.

From the Maritimes and the Pacific Coast, outstanding public men will come for the yearly conference. From France, Great Britain, the Irish Free State and the United States, representatives of other legal bodies will be present to aid and learn in the great meeting. The convention will last three days, August 29, 30 and 31. Hon. Mr. Justice W. M. Martin, president of the Canadian Bar Association, will be in the chair when the meeting opens at 10 a.m. on August 29. He was elected at last year's annual meeting, held in Toronto.

## Successor Not Named

Manitoba Government Has Not Filled Dr. Wallace's Position

Winnipeg.—No decision as to who will succeed Dr. R. C. Wallace, of the Manitoba University, as commissioner of mines and natural resources has been reached by the provincial government.

Dr. Wallace was recently given the post of president of the University of Alberta, and has relinquished his position as head of the geology department of the university of Manitoba, to take over his new post some time in September.

### To Study Canadian Methods

London.—With the object of studying commercial undertakings and institutions in Canada and the United States, fifty representatives of the National Chamber of Trade and Commerce, have left Southampton for Montreal. Six weeks will be spent making a tour of the two countries.

### Awarded Medal Of Merit

Ottawa.—Scoutmaster Oscar Lamoureux, of Fort Saskatchewan, Alta., has been recommended for the medal of merit by the Boy Scouts' Association for his work for the Boy Scout movement over a period of seven years.

### Lindbergh's Plane Catches Fire

Salt Lake City, Utah.—Col. Charles A. Lindbergh's plane caught fire on the field here, supposedly from a flooded carburetor, just as he was about to take off. P. Noonan, Lindbergh's mechanic, seized a fire extinguisher and put out the flames.

## WEST'S NEW PLAYGROUND

Prince Albert National Park, Saskatchewan, which will be opened officially on August 10, bequeaths to the people of Western Canada one of the finest playgrounds on the continent. Its borders enclose 1,400 square miles of forest, lake and stream, where all is to be found that goes to make a holiday memorable.

Prince Albert National Park lies about 30 miles north of the city of Prince Albert, which is served by many lines of the Canadian National Railways. A fine motor road runs from the city to Lake Waskesiu, in the heart of the park, where the opening ceremonies will be performed by the Rt. Hon. W. L. M. King, Prime Minister of Canada. Premier King represents Prince Albert in the House of Commons, and his constituents are presenting him with a cottage on this lake.

In addition to the Prime Minister, many other men notable in the public life of Canada, will attend. The programme will extend over a period of two days and special housing accommodation has been arranged by the committee.

The photograph shows a view on Kingsmere Lake, a typical body of water in this new and beautiful playground of the nation.—Photograph by Canadian National Railways.

## LONDON TO LONDON BY AIR

(1) Packages of air express, especially labelled, at the door of the cargo compartment in the express airplane.  
(2) (Inset) The single motor Fairchild cabin-monoplane landing at the St. Hubert air-field, outside Montreal, after the flight from Rimouski.  
(3) Canadian Pacific Express and customs officials at St. Hubert superintend the transfer from plane to plane.

Less than seven days after leaving the shipper in London, England, four packages of merchandise totalling forty two pounds in weight were recently delivered to the consignee in London, Ontario. This achievement was effected by the Canadian Pacific Express in the regular air express service maintained in connection with the trans-Atlantic liners entering and leaving the St. Lawrence.

In the forenoon on Saturday the packages left London and were placed aboard the "Empress of Australia" sailing from Southampton at noon. The following Friday they were trans-shipped from the

vessel to a plane at Rimouski and speeded towards Montreal. Less than three hours afterwards at the St. Hubert airfield outside of Montreal the express was transferred to another machine and carried on to Toronto. Arriving here in the evening, seven hours after leaving Rimouski the packages were picked up by another airplane at the Lesaside field and taken to London.

The Canadian Pacific are pioneers in air express in Canada, having service under a special tariff in connection with incoming and outgoing trans-Atlantic liners in the St. Lawrence River.

Not only is express to and from Europe greatly expedited by this arrangement, but domestic express shipments make constant use of the bi-weekly service between Ottawa and Montreal, Toronto and Montreal, and down the St. Lawrence to Rimouski, that thus serves two purposes. Express moving east or west between these points may be greatly speeded in delivery in this manner, and put considerably ahead of ordinary express matter unaided by this auxiliary. Merchants have made use of the Canadian Pacific Express Air Service to ship articles of every description, from flowers to motion picture film.

The Victory Tower of the Dominion Parliament Building at Ottawa, from which the stirring message of the carillon rings forth.

## EVERY TWO MINUTES OF EVERY BUSINESS DAY . . . SOMEONE IN CANADA BUYS A NEW GENERAL MOTORS CAR

SINCE the days of Confederation, General Motors of Canada Limited has been supplying Canada with transportation. Each year as requirements have multiplied, the scope of General Motors service has widened . . . the quality of General Motors cars has steadily improved. Each year more Canadians have looked to General Motors for better automobiles, until now, every two minutes of every business day, someone in Canada buys a new General Motors car. These cars are bought by people you

know . . . by people like yourself . . . for the very reasons which would guide you in the choice of a car.

They are bought because they are the product of the most progressive organization in the world's most progressive industry . . . because they reflect the General Motors policy of constant advancement . . . because they are better cars . . .

They represent the latest developments of the world's leading automotive research

laboratory, offering these developments to the public as soon as they become available. They are proved in advance, at the expense of General Motors, not the public. They are better cars because they are Canadian cars.

And they embody greater value because of General Motors money-saving methods of quantity buying and volume production. This popularity of General Motors cars holds more than a passing interest for the Canadian car buyer . . . for General Motors utilizes increased demand to reduce production costs and to offer still more outstanding automobile value.

IT'S BETTER BECAUSE IT'S CANADIAN

## Here and There

(93)  
Quebec, Que.—Announcement from Ottawa, from Dr. W. H. Collins, Director of the Geological Survey of Canada, promises several survey parties in Quebec Province this year, mapping and investigating in the geology and mineral resources of the province.

Six hundred delegates to the World's Baptists Congress meeting in Toronto, June 23-29, virtually chartered Canadian Pacific liner Montroyal, and were taken on from ship's side to Toronto by special C. P. R. train. Following the congress, the delegates make a trip across Canada to the Pacific Coast and return.

Edmonton, Alberta.—Looking to the improvement of wool produced by the sheep ranchers of the Prairie, a party of experts has started out under the direction of the Research Council of Canada to make a survey of the representative sheep ranches of the three provinces. British Columbia is included in the tour.

Winnipeg, Manitoba.—The formation of a dairy pool is suggested as a possible means of meeting the competition of Denmark in dairy produce on the British market by Sir Thomas Allen, leader of the co-operative movement in Great Britain and special envoy of the Empire Marketing Board at the wheat pool conference in Regina.

Indian Head, Saskatchewan.—One hundred million trees have been distributed throughout the Western provinces from the Forestry Farm here and its subsidiary at Sutherland, and the work is still progressing at an unabated rate. Practically all go free to farmers and an average of a car a day is shipped. The work was started in 1901.

The Alpine Club of Canada will hold its 22nd annual camp July 17-31 at the Lake of the Hanging Glaciers in the Purcell Range of the Rockies. Banff will be the railhead for the camp which is five hours motor journey farther on. Eleven peaks all above ten, and some exceeding eleven thousand feet in height, will be at the climbing disposal of the campers. There are also many others between nine and ten thousand feet high.

East makes its annual bow to West with the University of Montreal trip across Canada to the Pacific and back, starting from Montreal July 7. Many prominent French-Canadians make this annual trip which is sponsored by the University and run on Canadian Pacific trains, motor facilities and Great Lakes Steamships. All the major cities of the West and the beauty spots of the Rockies are covered in this popular tour.

Younger railwaymen in the employ of the great Canadian transportation companies held their first annual conference at Montreal recently under Y. M. C. A. auspices. The young men came from all points in Canada: between Halifax and Vancouver and quickly got acquainted, swapping experiences and stories in friendliest fashion after the first informal introduction. It is hoped to repeat the conference year.

### CHAPTER XXVIII.—Continued

The willows that grew beside the river were blushing as the sap rose, green, yellow or red according to their kind—and the roads began to whiten with the fuzz from the aspens.

But, on this twenty-fifth day of April there arose out of the west a sheer black cliff of cloud into the boundless blue—a thick, deep cloud, in which silent lightnings played, and as the day went on, it showed up higher and higher into the sky until at three o'clock it was ready to cover the sun.

During this time the heat had not abated. The air grew heavy and oppressive. It was the sort of a day when horses break into foamy sweat and people feel cross-grained, clammy, irritable, and full of aches and pains which they attribute to the weather.

The edge of the cliff had a whitish color at four o'clock, when the sun had gone under, and all the trees were standing still expectantly, as if bracing themselves for something which they were unable to help.

In the gathering gloom the houses in Bannerman, grouped around the station, looked more than ever like castles about to spring. The clouds are rolling now, with white lines on their billows, and there is a distant rumble of thunder, like the roar of a far-away city.

All day the rain clouds threaten and thunder growls, but it is not until night has fallen that the change comes. The crows that have been sitting like birds of ill omen, humped up on the trees, fly further back into the bush, as if in dread.

On the train coming to Bannerman sits Helmi, very pale, very determined, with a purpose so terrible she does not look at her fellow-passengers, for the fear is on her that they might divine her errand and try to dissuade her from it. She has made a vow of vengeance, and she will keep it. Why should she spare the man who has wrought so much evil in her life? There is a burning, torturing pain in her heart that only revenge can ease, and as she sits at the window looking out into the gathering storm, she glows over the scene. She will come in upon him as he sits at his littered table—the only, grimy old man, who kept so safely the lying newspaper, guarding it hoarding it, to do her harm. Other things he lost in the confusion and unkindness of his ugly den, but this he treasured safe, and showed it to her—Jack—poisoning his mind against her—and now her Jack had gone

overseas, angry and bitter—to be killed—and little Lili, when the fever came on her, had no home where she could be nursed back to life—no home, poor little precious Lili, with her silky brown hair and soft little caressing lips.

The fever in her breasts when she thought of Lili burned like a thousand red hot needles, until the perspiration broke in beads on her face. She would see the color fade from her enemy's face when fear gripped the wicked old heart. She had thought of it often since she saw Jack's face gliding, gliding away from her... she would see the color go in patches from his face, and he would beg for mercy when he saw the gleaming barrel of the revolver—beg and whimper and call upon his God.

Wild strains of blood in Helmi's heart were crying for her to strike and not to spare; and the pain, the horrible drawing, twisting pain around her heart grew more maddening every moment, and in every pang and spasm that tore her was a tongue that cried "Revenge!"

Once Helmi thought of God, when a flare of lightning lit up all the countryside; reverberating from house to house, white, and bending trees that crumbled before the rushing wind. God? a lot He cared; God was with the magistrate and let him live secure while her Jack went out with mate and horse to die and little Lili tossed in her fever with no mother to comfort her!

Helmi had ceased to reason and ceased to fight—she only felt. The primitive passions were ablaze in her. She had known robbery of her mate and her child. Red murder gleamed in her eyes.

When the train stopped at Bannerman the storm was at its height. The wind had the whine of stretched wires in it, and whistled across the deserted platform with a horrible hissing sound. The night was inky black, with bursts of lightning blinding her eyes, and continuous bellows of thunder, like a hundred fire engines roaring past, shutting out every other sound.

Helmi knew her way as if by instinct. In the lightning's revealing flashes the house she sought was easily found. She was breathing now like a person with pneumonia, her nostrils quivering like a wounded's when he has the quarry at bay. The revolver was in her hand, and in each flash of the lightning it gleamed like a blinding searchlight. Each chamber was loaded, for Helmi intended to do her work completely.

She reached the verandah steps, remembering the one that was broken, carefully making no noise, and stood at the uncurtained window looking in. The man she sought sat at his table with a glass and little beside him. A roar of thunder made the bottle tremble on the tin tray and rattled the bricks in his chimney. He started and looked toward the window, though Helmi had made no sound.

Helmi moved a step nearer and tapped on the glass. She wanted him to know—to see. She wanted to see the cringing fear—she wanted him to beg—pledge. He came over to the window, and he must have seen her face, white and awful in the darkness, for he recoiled back in fright with a scream of horror.

Then came a crash—a shuddering, sickening crash—with blinding blue lights that seemed to strike at Helmi's eyes like a thousand furies. There was a sound of crashing timber and a confusion that flung Helmi to her knees. When she opened her eyes and looked through the window she saw her enemy lying dead on the floor—his face livid, his eyes wide open, full of terror.

When Helmi came to herself she was running through the storm on feet shod with fright—running as if all the fiends of the night were in pursuit, the sky opening and shutting with dazzling lights and blinding darkness; night voices screaming, and louder than all, her own heart pounding in her ears.

Sometimes she felt, rising to her feet again; sometimes she felt a sudden blow, as if a crashing tree had struck her as it fell; but always her fear drove her on.

She had no sense of fatigue as she ran on and on a pace of flight; but a strange homing instinct led her in the direction of Eagle Mines. Even in her hysteria and frenzied flight she carried her toward the little house, where she had been loved and secure.

# Christie's

DIGESTIVE BISCUITS

Have you tried  
Christie's latest  
—the "Ace"?

## Christies Biscuits

The Standard of Quality Since 1853

Not only for those who have to be careful of their diet but for everybody, young or old, there are no biscuits more wholesome or satisfying than Christie's Digestive Biscuits.

In the Store or on the phone, always ask for

Then came the rain a furious pelting rain that seemed to fall in drowning sheets of water. Every time the heavens opened with the bursts of thunder another downpour drenched the earth.

Suddenly Helmi was aware that some animal was running beside her, and in a flash of lightning she saw the sable collic, her breast showing ghostly white against the blackness of the night.

The nearness of something warm and living gave Helmi courage, and, falling beside the dog she clasped her arms around it in a sudden passion of weeping. The animal licked her face soothingly, whimpering softly, and with strange comfort, in its almost human tenderness. Her wet clothes hung on her now like heavy weights. The dog ran on ahead with encouraging barks and Helmi, following, begged the animal not to leave her alone in the darkness.

A great weariness came over Helmi now, and a growing fear that her strength was leaving her, but the dog was bounding back to her every few moments and urging her on as plainly as a dog could to come a little farther.

Suddenly at the mouth of the cave, black and terrible, the dog stopped and pulled her by the hand. Helmi followed blindly into the midnight blackness, into which even the lightning could not penetrate. She found something soft beneath her feet, and, stooping down, found a bed of hay, dry and comfortable, and at she fell, grateful to be out of the lashing fury of the storm.

The storm still roared in her ears, and the fury of the rain filled the cave with a sound like a roaring cataract.

(To be continued)

### Minard's Liniment for Insect Bites.

A University dramatic society intimated to Mr. Bernard Shaw that they would perform one of his plays if he would grant permission.

His reply was brief: "You can't, but may."

DON'T suffer headaches or any of those pains a tablet of Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every drugist has it, but don't fail to ask the drugist for Bayer. And don't take any but the tablets that are stamped with the "Bayer Cross."

### An Open-Air Parliament

Held Yearly Since 1412 in Capital of Swiss Canton

The oldest open-air parliament in the world, known as the Landsgemeinde, which has been held yearly every May since 1412 in the market place of Atdorf, capital of the canton of Uri, Switzerland, was abolished recently by a majority vote in favor of a secret ballot to take place in the town hall.

Laws have been enacted for more than 500 years simply by uplifting arms. Six other Landsgemeinden still exist in the smaller Swiss cantons.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

### Teeth and Health

Issued by "The Canadian Dental Hygienist" Council and published by The Saskatchewan Dental Society

#### TOOTH IS LONGER

Your child had tooth-ache one night and you were able to relieve his suffering by applications of oil of cloves to the cavity, and when the pain had subsided, you congratulated yourself that the trouble was ended. But in the morning he awoke to find that the tooth was sore to bite upon, and longer than the others, so he said.

Now, he was right: for in a sense the tooth was longer than its fellows. Just what happened?

Each tooth is suspended in a soft tissue sac which acts as a cushion between the tooth and its bony socket, breaking the jar when the tooth is in use.

And the inflammation which caused the tooth to ache, has spread from the pulp to this sac (or pericementum), which is richly supplied with blood vessels; thus, with the accompanying rush of blood, the sac has become swollen and so thickened. Actually, then, it does lift the tooth in the socket a trifle, permitting it to hit the opposing teeth before the others come together.

Now, of course, this needs attention, not only because of the dangerous sequelae from the inflamed condition if allowed to progress further, but also for the reason that Sonny will do all his chewing on the "yell side," in his endeavor to avoid using the sore tooth.

This continued long enough, will form a habit making for a one-sided muscle development and leaving the teeth on the "sick side," because of this disuse more prone to decay.

Further, should one or more of these deciduous teeth be allowed to remain in such condition as to cause pain when used, the food will naturally be bolted and a harmful habit formed which it may be difficult to correct later.

#### Drone Does It

One of the latest mechanical devices in this mechanical age is the new switch which floods an air port with light at the sound of an approaching aeroplane. The drone of the aeroplane motor is used to start a sympathetically-tuned reed vibrating; as the aeroplane approaches, the low note of its motor sets the reed in vibration, and the reed in turn switches on the powerful lights.

Masie—"He's got a lot of culture, hasn't he?"

Mae—"Yes, but it's all physical."

Minard's Liniment heals cuts, bruises, etc.

### Little Helps For This Week

"Now, therefore, keep thy sorrow to thyself, and bear with a good courage that which hath befallen thee.—Ecclesiastes 1:15"

The patient heart. That bears its heavy cross apart. And still makes known. Its burden unto Christ alone.—To this one His sweet spirit brings Most dear and gracious comfortings.—Mary Bradley.

It is not in vain that you are called to pass through great trials and sufferings. They never leave you what they found you; God forbid they should! But how you bear them, what they lead you to do and to feel will vary according to your own attitude to them. Their trend and purpose are towards those two poles of duty—God and humanity; but it is our weakness and fault that often we do not read aright their meaning. Suffering may leave us hard, selfish, and complaining, or it may lead us into the mysteries of Providence, and into the fellowship of God.

—Theodore T. Munger.

### SUMMER COMPLAINTS

#### KILL LITTLE ONES

At the first sign of illness during the hot weather, give the little one Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by mail order to the Canadian Cough, Croup, and Sore Throat Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Disease," will be sent free to any mother on request.

Sandy: That car I bought from you won't go.

Salesman: Well, sir, you said you wanted one that wouldn't use much gasoline.

Corn cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

No vegetable has a higher content vitamin "A" than spinach; weight for weight fresh spinach is a little richer than butter in this substance.

### PIMPLES LASTERD OVER 2 YEARS

Very Large and Painful.

Healed by Cuticura.

"My daughter's face was covered with pimples that were hard, very large and red. They festered, and were so thick that you could not put a pin head between them. They also broke out on her shoulders and neck. They were disfigured. The trouble lasted over two years."

"I read an advertisement for Cuticura Soap and Ointment and was chased some and at the end of three months she was healed." (Signed) Mrs. Horace Reynolds, New Glasgow, N.S., March 22, 1927.

Cuticura Soap, Ointment and Tablets are sold free of charge to those who write for them to Mr. A. J. Cassin, 1000-1001, Broadway, New York, N.Y.

## TIRED, WEAK, NERVOUS WOMAN BENEFITED

Praises Lydia E. Pinkham's Vegetable Compound

Asbestos Mines, Quebec.—"After the birth of my second child, I was always feeling tired, nervous and weak and had headaches, backaches and terrible pains every month. I suffered two years before I tried Lydia E. Pinkham's Vegetable Compound. I got four bottles at first and it did me a world of good. I would not be without it in the house now, and have another six bottles in. I recommend it to every woman I know."—Mrs. T. Bessure, Box 114, Asbestos Mines, Quebec.

### Picnic at Winterburn.

The Weather Man favored Winterburn Community on Friday last, when they held their annual picnic on the grounds at Winterburn. A good bill of sports was run off, including a ball game between Winterburn and Spruce Grove, which resulted: Grove 10, Winterburn 2. The feature of the game was when Conrad Fuhr, with 2 strikes on him, gave the ball a wallop for r home run, bringing in three men. Prize for hits—Ph Enders; prize for stolen bases—Ph Alt. Grove battery—J Miller & Combs.

There was also a very good tug-o-war, Married v Single, and won by the Single Men; and contests for the Horse-shoe fans.

The dance in the evening was well patronised.

### Community Hall at Muir Lake

At a meeting last week of the members of Muir Lake Community, in the School house, it was decided to erect a Community hall this season. After some discussion, a corner on the northeast of 25-53-1w5, was agreed on as the most suitable. On a vote, the choice was made unanimous. The site is on the farm of Mr Alec Zeiler.

It will be an imposing structure 60x24 feet, with all up to-date conveniences for a rural meeting place. Some 15,000 feet of lumber is on the site, awaiting the builders. The logs for these was donated by members of the Community, and these logs were very kindly sawed into lumber free, by Messrs Poemert the sawyers. This community has been in need of a meeting place, and when the new structure is up it will be a credit to the district.

### Stony Plain and District.

Mr Michael returned yesterday from Banff.

Sommerfield and Mayer are building an extensive addition to their present garage premises on Main St. When this is completed, the roof on the old building will be replaced with a new metal one, which will give a clear floor space all thru the building. A new gas supply pump and tank have been installed at the Main St. entrance, the new tank having a capacity of 750 gallons. When the addition and alterations are completed, the Service Garage will have one of the best-equipped auto layouts west of Edmonton.

It is understood the teaching staffs at the local public and High Schools have been re-engaged for the fall session, with the exception of Mr E Wilcox, who is going to Castor.

Mr Fritz Timoina, from Colorado Springs, is visiting at present with Mr M Coyes, Muir Lake district.

### Sporting Notes.

The Grove's ball team played the Edmonton Colored team, at the Beach, on Sunday, and won by a score of 20 runs to 7.

Duffield ball tossers played the Holborn team, at Holborn, on Sunday. The Holborn team won, by a score of 7 runs to 6.

### Duffield Doings

The railway work train, which had been located here for about a month, was moved west, on Sunday, to Wabamun, where operations will be continued.

A Community dance will be held on the evening of Friday, July 27, in the Curling Rink building.

The hail which accompanied the big storm on Friday evening did damage on some farms south of town amounting to 25 per cent, it is reported.

Mr Catt, who had been running a restaurant here for the past four months, is closing his eating place and moving with his family to a private residence farther east on Railroad avenue.

### Carvel News.

The members of the Ukrainian Society gave a concert in their hall, north of town, on Saturday evening. There was a good attendance. A feature was the singing of several Ukrainian folk songs by all present.

Mr H Ingram was up from Bruderheim, this week, and gave his farm in this district a survey.

The big rain storm Friday night flooded quite a few of the low lying places in this district.

There is a rumor that the wedding bells will shortly be ringing for a local very loving couple who are seen very much together.

### Spruce Grove Restaur'nt

ALL WHITE HELP.  
GOOD MEALS AT REASONABLE PRICES.

**John Nichols, Prop.**

### Spruce Grove News

During the electric storm Friday midnight the residence of Mr J J Metcalf was struck by lightning, but did not do much harm beyond damaging the radio aerial.

Secretary D Brox is advertising for two teachers for the local school.

Last week a local gentleman received a letter from Mr Dickie, intimating that George is working at the carpenter trade in Toronto.

Sunday, July 22d, services will be held in the United Church at 11 a.m.

A much-needed improvement in the way of grading Railway Ave, has just been made by Mr Jac Brox and his gang of roadmakers. It will be possible to pull up to the front of a business place without taking the chance of being mired. Some good work has also been done on the Baseline by Contractor Sutter and his six-horse outfit.

Mr N Shermund shipped a car of baled hay last week, to the west.

Four new Chevrolet sedans and coaches were sold last week to residents of this district by Sommerfield & Mayer.

### At the Fair, This Week

The mammoth Pageant at the Edmonton Exhibition all this week, depicting the ever-welcome stories of Mother Goose and Cinderella, was staged on a grand scale by a cast of 650 people and a children's chorus of 250 voices. A large number of nursery tales were presented in a truly fascinating manner.

Today, July 19, will be Alberta amateur band contest day; bands from Coronation, Botha, Camrose, Provost, Lussac, Wetaskiwin, Halkirk, Cold Lake have entered. The contest will be judged by the leader of H.M. Royal Air Force band, the leading musical feature of the Exhibition, giving two performances daily in front of the grand stand.

The races this year offered splendid fields of the fastest runners in Western Canada in a 6-day program of races. Popular attractions included a fine series of vaudeville acts and a scintillating display of fireworks was given each night.

So far this week, Stony Plain and District have been well represented, as usual, at all the sessions.

### Railway Time Table.

Going east—Every morning at 6:55, except Tuesday.  
Going west—Every night at 10:36 except Sunday.

### LAUNDRY!

Washing by the Piece. Work called for. Reasonable prices.  
MRS. JOHN SCHMUTTRA.  
4 doors west of St Matthew school.

### Cattle Wanted!

Meredith Bros. are loading Cattle every week. See them about yours.

### Lumber For Sale!

Boards and Dimension; very reasonably priced. J F Bauer, 2 miles west of Stony Plain. 99
